education

Engineering

University of Southampton

Software Development

Birmingham Metropolitan College

hello

Hey there! My name's Jake and..., let's cut the bullshit. You don't care about my name or what mundane things I do in my spare time. You care about what I can deliver for you.

- Testable, maintainable, and scalable front end architectures and design systems.
- Automated front end development, test, build, and deployment processes.
- Living style guides and pattern libraries that grow as your system evolves.
- Insightful code review, knowledge sharing, and mentoring of junior developers.

recent experience

JavaScript Developer
Sep 2017 - Present

NGA HR, Bristol, UK.

- Enhancing the existing human resourcing AngularJS application by developing time and attendance management capabilities, for both employees and managers.

Front End Software Engineer
Jul 2017 - Aug 2017

Toumetis, Bristol, UK.

- Developed additional functionality in an Angular 4 web app, enabling providers to send customised push notifications to their users' mobile devices.

Senior Front End Developer
Dec 2016 - May 2017

Anatwine, Cheltenham, UK.

- Developed an AngularJS 1.5 web application for onboarding major brands and products to a Top 5 Fortune 100 retailer's ecommerce website.

Lead Front End Developer
Jul 2016 - Dec 2016

RAC, Bristol, UK.

- Led the front end redevelopment of the UK Breakdown Cover buyers journey, used on the primary RAC web site as a responsive AngularJS 1.5 app.
- Contributed heavily to the internal JavaScript coding standards guidelines and front end style guide & pattern library.

Front End Developer
Oct 2015 - Jun 2016

Burfield, Bath, UK.

- Developed an AngularJS 1.5 web app for assessing whether a visitor has had a security breach and what further action to take.
- Developed an Ionic (AngularJS) hybrid mobile application for the internal communication of legal documents and syndicated content.
- Conducted an accessibility review of the main web site and micro-sites, including written report and proposal on how to attain WCAG 2.0 Level AA.

Front End Developer
Oct 2014 - May 2016

Cruise.co.uk, Redditch, UK.

- Provided BAU front end development services to maintain smooth operation of the main web site and associated services.
- Developed plugins, additional functionality, and SEO advice for the 200+ cruise consultants' and news blogs.

To keep this résumé brief, roles older than 3 yrs are on my LinkedIn profile at
